PROJECTS

WizOff - A 2D Video Game Made With Unity & C#

A fully functioning 2 player video game using Unity Engine

Using C# and the Unity Engine, I created a fully functioning 2D tug of war style PvP game. Players must fight each other through stages using spells and items until one player makes it to the end of their respective side. Grab a friend and two game controllers of your favorite console and battle it out!

See the code here: <https://github.com/mikelopresti21/WizOff>

Play game: <https://mikelopresti21.itch.io/wizoff>

Snake Made With Vanilla Javascript & HTML

The classic snake game built in html and javascript

One of my first programming projects, take a look at my github to see how I implemented the classic snake game using only HTML, CSS, and Javascript:

<https://github.com/mikelopresti21/mikelopresti21.github.io>

Play the game on my website: <https://mikelopresti21.github.io/snake.html>

Simon Memory Game Made With Vanilla Javascript & HTML

The classic simon game built in html and javascript

Another classic game using only HTML, CSS, and Javascript. Take a peek at my code here: <https://github.com/mikelopresti21/mikelopresti21.github.io>

Play my game here: <https://mikelopresti21.github.io/simon.html>

My Portfolio Website

A website I created from scratch to showcase all my work

I created my website from scratch using HTML, CSS, and Javascript to showcase my current and future projects. Read more about my skills, work experience, and enjoy the fun games I've built!

<https://mikelopresti21.github.io/index.html>

CODING LANGUAGES

C# , Java, HTML, CSS,
Javascript, Python, C

FRAMEWORKS AND TOOLS

Git & Github, React, Node.js,
VSCode, Visual Studio, Intelij

EDUCATION

Rutgers University, New Brunswick NJ

BA in Computer Science

January 2024 - Expected Graduation

December 2025

Current GPA 3.86

Brookdale Community College, Lincroft NJ

AS in Business Administration

September 2017 - Fall 2023

3.72 GPA

WORK EXPERIENCE

Terrestrial Imaging, Brick NJ— Owner

2016 - 2023

Terrestrial Imaging is a retail company that focuses on the sale, support, and training of drone equipment. I co-founded Terrestrial Imaging and helped grow the company to over 2 million dollars in revenue. Learn more here: <https://mikelopresti21.github.io/experience.html>
